Specialists

Start Your Career As A
**Glass Repair
Technician**
With GlasTech Repair

Hey Franchisee, Welcome to GlassTech Repair

You're looking to build a business for your future, and GlassTech have just the platform to enable you to do that with minimal fuss, all the training you need, and a pool of leads ready to get to work with.

Our screening process ensures we only work with the most ambitious, self-motivated, entrepreneurs, looking to kick start a new career with the amazing freedom that self-employment can bring, without the headache of having to start their businesses from scratch.

We have huge demand at GlassTech, and as such we're looking to develop our operation and expand our already nationwide team with more independent glass repair technicians.

You'd be running your business with a significant income, working mobile, in your local area, with direct routes to huge national brands like Lookers, Arnold Clarke, and Evans Halshaw. Full training, marketing, equipment, and even an app to manage your interaction with head office.

We offer a complete package, ready to kick start your exciting new career.

The History Of GlassTech Repair

GlassTech was founded in 2009 by our Director, Chris Attack. We've been on a steady growth trajectory since then with an expanding number of franchisees as far as Scotland, down to the South of England.

We are specialists in stone chip repairs, wiper marks, and scratch removal, on pretty much any glazed surface. Whether it be a windscreen, side windows, rear window, headlight, home, or business glazing unit, we've got it all covered. This ensures maximum clarity when driving in all weathers, and a home of business that's always looking its best.

We're insurance backed and approved for both one off customers or large companies. Our clients list includes, but is not limited to: First Transport, Stagecoach, Arnold Clarke, Lookers, Evans Halshaw, Mercedes, BMW, and Ford.

Fancy adding these guys to your client base?

Our Applications

It's Not Just Cars You'll Cover

**Private
Vehicles**

**Commercial
Vehicles**

**Public
Transport**

**Domestic
Glazing**

**Commercial
Glazing**

GlassTech Repair Services You Could Offer

Windscreen Chip and Scratch Repairs

Repair dangerous chips and scratches in any vehicle glazing. These dangerous mishaps should be repaired as soon as possible to prevent crack's migrating, reduced vision, or worse.

Our GlassTech kit will restore glass to its original appearance and stability, and is completely invisible to the naked eye.

Window Restoration

Your glazing repair expertise don't start and end with cars. You'll be qualified to repair domestic and commercial glazing on buildings too.

Don't replace scuffed and scratched glazed units and send them to landfill. Repair them, and save hundreds of pounds for your clients, whilst making their property look sparkly and presentable once again.

This offers huge value for money for your clients, and expands your client base to pretty much anybody you meet.

Headlight Restoration

Nothing ages a vehicle's aesthetic more than a split, cracked, or scuffed headlight.

Add another cost effective service to your arsenal and save your clients the cost of replacing full headlights by restoring and splits, dents, or scuffs for them, right at their forecourt.

No lead time for parts, no waiting around, get their cars ready to sell, quicker!

Think Bigger

Regular Work with Fleet Inspections

Want to work with national brands? At GlassTech we've already built the relationships to get you involved.

Regular visits with large car dealerships, coach operators, public transport and haulage companies is a great way to scale your business.

Speed up client turnaround with vehicles for sale, keep their fleet on the road, and ensure they can service their end clients faster. A truly symbiotic relationship that develops repeat business and ensures smooth business growth for your new glass repair business.

Our technology, expertise, and training means you can detect cracks and blemishes before they become a problem.
